By the KWO Planning & Outreach Team Alone

RFP for Increasing Education Resources Technical Assistance

- **2.3 Scope of work**

- The following services are to be provided by the Contractor for use by any educator throughout the State of Kansas.
- **Requests for Assistance:** Contractor shall provide technical assistance to the Kansas Water Office in development of potential new programs/resources to be utilized and shared on the KSROW website, in workshops, and in any Kansas education curriculum.
 - **Establish a baseline knowledge:**
 - Contractor shall assist the Kansas Water Office in the gathering current Kansas Science Education curriculum that includes Kansas water specific lessons, including groundwater, surface water, and Kansas geology topics.
 -
 - **Build water resources for KSROW:**
 - Contractor shall utilize information gathered from the baseline knowledge to assist the Kansas Water Office in modifying/expanding those resources in order to aide teachers in connecting students to their Kansas water resources across a variety of Kansas landscapes (Ozarks, tallgrass prairies, wetlands, Ogallala/High Plains Aquifer, etc.
 - Contractor shall assist the Kansas Water Office in coordinating meetings with the Kansas Department of Education to research adoption of Kansas-specific water resources into statewide curriculum
 -
 - **Create & Implement Water in Kansas Leadership Program for Teachers:**
 - Contractor shall provide coordination and outreach for regional teacher leadership programs highlighting water and water education resources in their communities. The program should be made available across the entire state, thus focusing on both surface and groundwater programs.
 - Contractor shall outline the interest and necessities to adapt the Water in Kansas Leadership Program to a high school ambassador level program.
 - Contractor shall outline the interest and necessities to adapt the Water in Kansas Leadership Program as a module for city/town governance.
 -
 -

We need you!

Making a change in our Kansas water resources will take an all-Kansans team effort.

*** Where do see yourself, your group, agency or organization helping us implement change for Kansas water?**
