AF - Acre Feet
EOM - End of Month
Evap. - Evaporation
Precip. - Precipitation
MSL - Mean Sea Level

Future Use - Storage the State has contracted to purchase but has not yet been needed for the Water Marketing or Water Assurance programs.

Water Marketing - Storage dedicated to serving customers of the Water Marketing Program, sufficient for a drought having a 2% chance occurance.

Water Conservation Plan triggers issued by KWO are based on remaining Water Marketing Storage, as follows:

Water Watch: 75%

Water Warning & Emergency: No specific remaining storage threshhold. KWO will issue if any monitored drought indicator is observed to be more severe than the 2% chance condition.

Water Quality - Storage that is managed jointly by the U.S. Army Corps of Engineers and the Kansas Water Office and is used to serve downstream water quality needs.
